OVERVIEW

Our Retirement Apartments are situated in an architecturally designed complex where spacious zones and the play of natural light feature throughout. The development houses forty 2 bedroom apartments that have been designed to offer some flexibility with different floor plans with some that include an additional flexi-room, study nook or sunroom.

Situated across the road from MiCare's residential aged care facility may be comforting to know that a full range of Aged Care services are available, either through fee-for service or if eligible, through government funded care should you require or if your needs change.
