Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

The price change is based on current market interest and recent sales activity. The property listed above has been selected as the most comparable recent sale within a 2km radius and shares several key characteristics with the subject property. Due to the limited availability of comparable sales, with very few to no suitable alternatives available, only one property has been selected. Other available sales differ in floor level and provide less relevant supporting evidence. Based on this comparable sale and prevailing market conditions, we believe the subject property is likely to achieve a sale price in the range of **\$940,000–\$990,000**.
