Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Two comparable land sales were identified within 2 kilometres of the subject property in the past six months: 2 Kestrel Street, Officer, which sold for \$407,000, and Lot 107 Hickson Road, Officer, which sold for \$375,000. Both sale prices have been taken into account when determining the estimated selling price.

The subject property's approximately 286 m² land area and park-fronted position have informed the estimated selling range of \$395,000–\$430,000. The park frontage provides an outlook over open space and is considered a positive location attribute, with differences in land size and position taken into account when assessing the comparable sales.

No third sufficiently comparable land sale was identified within the required distance and timeframe

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
